## HC DrugFree is keeping Howard County *In the KNOW!!!*

---

### Mark Says "You Won't Be Disappointed" So Register To Attend

Join hundreds of community members already registered for this summer's most informative drug and alcohol educational event, High In Plain Sight.

Here's what **Mark from Laurel, Maryland** had to say about the speaker, Officer Jermaine Galloway (also known as Tall Cop), and this program:

"I've attended many industry conferences and trainings and there is nothing that compares to Officer Galloway's training. He is a wealth of information for anyone that requires the knowledge for observing signs and trends of alcohol/drug use, how and where it can be hidden in clothing and personal items, and what to be aware of in terms of identification of these signs. He brings suitcases full of related items for attendees to see and feel for themselves, so they can be familiar if they see these things outside of the training. The unique part, which really makes this training relevant, is that he actually goes out into the local community and finds where many of these items can be found- unbeknownst to many of us! This training is outstanding...**you will not be disappointed!!**"

Sorry, we can't share Mark's job title, but HC DrugFree's team knows him well and based on his professional role in the community and across the State, we value his opinion.

HC DrugFree and Delphi Behavioral Health Group are pleased to bring this free event to Howard County on Saturday, August 17 from 11:00 a.m. to 2:00 p.m. in the Howard High School auditorium. The doors will open at 10:30 a.m.

[Click here](#) for a printable flier and be sure to share this flier with others.

A special thank you to Howard High School Principal, Mr. Nick Novak for partnering with HC DrugFree to provide this opportunity to our local community.

Because this presentation is free and very much in demand, everyone needs to register. At the request of the presenter, this event is not open to anyone under 18 years of age. **Register at <https://high-in-plain-sight-tallcop.eventbrite.com>.**

Officer Galloway provides nationwide training to community members, law enforcement, criminal justice, drug courts, health professionals, judges, probation teams, university officials, school resource officers, treatment providers, counselors, coaches, and

advocacy organizations across the country.

Tall Cop warns: **You Can't Stop What You Don't Know™** ☐!
